----------	---	------	--

### **ADDITIONAL INFORMATION**

We moved into new house on Wednesday. We saw him before we went to bed Wednesday night but could not find him Thursday morning nor have seen him since. Pretty certain he did not leave house but now unsure. Owners frantic. Are very concerned for cat's well being. Please spread the word, and contact RVAS if there is any sightings. Volunteers are asked to join our "search and rescue" team to begin distributing flyers, search online and in local newspapers as well as on site.
